

Kangaroo Night Time Bag

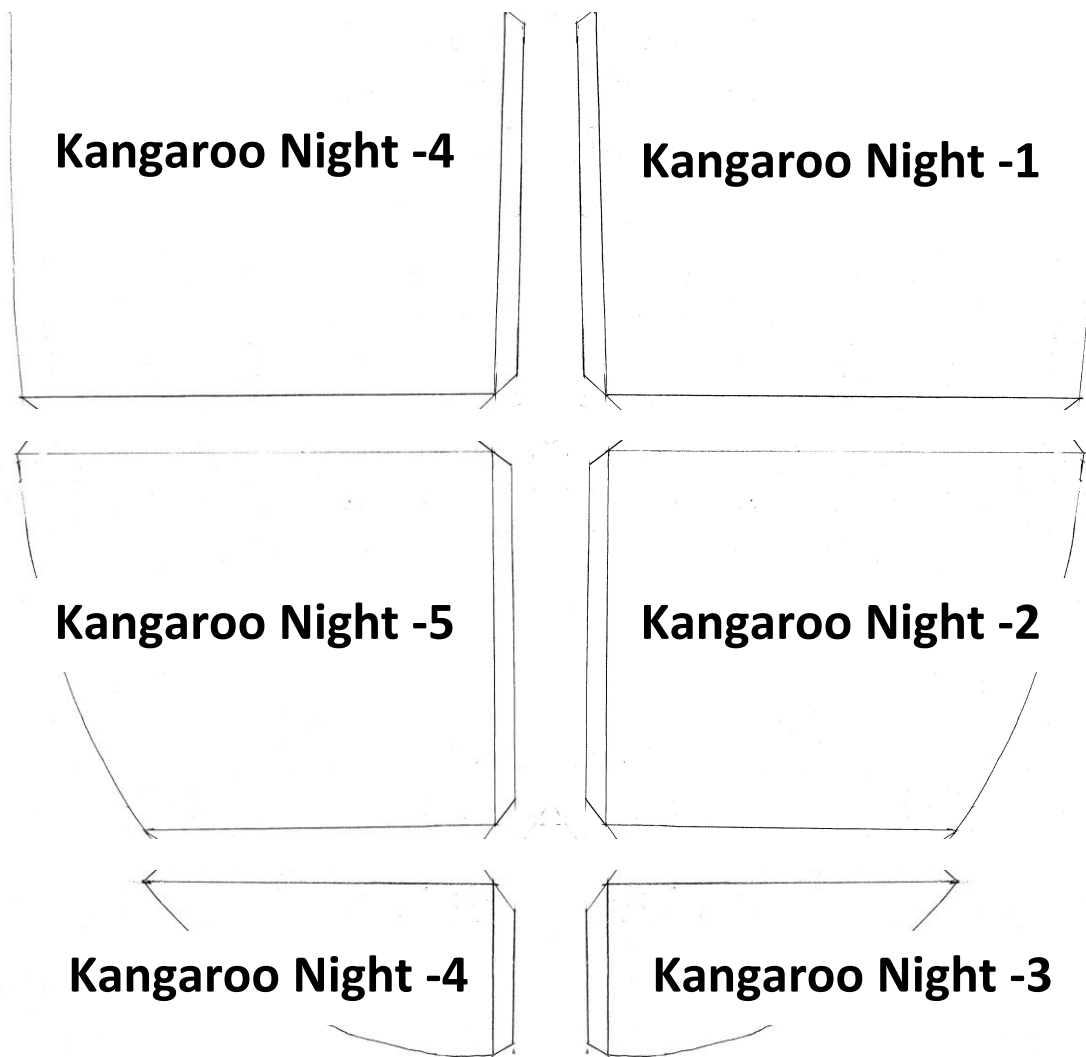

1. Print pages 2-5 on single sided A4 paper
2. Join them together with tape as per the following diagram
3. Use the resulting pattern to cut out both the front and back of the bag
4. Cut out a piece for the strap 95cm x 20cm

All bags and liners consist of an outer and an inner layer so each bag or liner will be made up of four pieces. Two pieces are the lining and two pieces are the outer.

Use heavy duty natural fabric for the outer layer and something softer like a cotton knit for the inner layer. Sew together so that seams are not visible.

For bags, add the strap in before you complete sewing the exterior of the bag.

Referring to the pictures on the Long Grass website will help.
